

HARVESTING SUCCESS!

Spudnik Equipment Company LLC is the North American market leader for potato planting, harvesting, and handling equipment – all designed and manufactured in our state of the art facility in Blackfoot, Idaho. We have opportunities for enthusiastic, self-directed, and innovative people who are interested in a satisfying and rewarding career. We are now accepting applications for the following position at our Blackfoot, ID location:

MIG WELDERS

Welder will be responsible for fitting and welding structural and component parts for manufacturing. Welder will be required to use mechanical drawings and verbal instructions to produce required equipment, set up and operate welding equipment and supplies. Welder will be available for shift-work where appropriate in order to respond as production needs arise. Welder will demonstrate high level of responsibility and accountability, working effectively and efficiently. We want applicants who are highly motivated and demonstrate high levels of responsibility and accountability, working effectively and efficiently on all tasks.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Be able to fit and perform high strength, visually appealing, structurally sound welding;
- Read and understand technical drawings and customer orders;
- Work from verbal instructions;
- Communicate part needs to appropriate sources;
- Participate in design and area improvement efforts;
- Inspection of parts-both visual and technical
- Perform basic preventative maintenance on machinery;
- Understand production flow and prioritize work schedules;
- Operate forklift and overhead crane in a safe and responsible manner;
- Assist entry level welders to improve technique and qualify;
- Produce equipment to the required time schedule.

REQUIREMENTS:

- Proficiency in basic shop math (addition, subtraction, multiplication, division);
- Proficient in all types of measuring tools as required (tape measures, squares, protractors, etc.);
- Training in welding or experience in production welding;

- Well-developed knowledge of equipment, parts, systems, tools, and machinery required in production of welded components;
- Understanding of welding and manufacturing shop safety and possible hazards;
- Ability to cut and fabricate detailed parts as required;
- Excellent troubleshooting and analytical skills;
- Excellent communication skills, both written and verbal;
- Ability to read and interpret instructional drawings and schematics.
