## **Job Description:**

Use hand-welding, flame-cutting, equipment to weld or join metal components or to fill holes, indentations, or seams of fabricated metal products. Set up, operate, or tend welding, machines or robots that weld metal products, components, or assemblies. Fabricate, position, align, and fit parts of pipe, plates, and structural metal products. Install, dismantle, or move machinery and heavy equipment according to layout plans, blueprints, or other drawings.

## **General Responsibilities:**

- Dismantle machines/processes, structural components, or mechanical mechanism at customer facilities
- Perform millwright work with some degree of proficiency
- Capable of performing pipe fitting and welding projects
- Proficient in welding the following
  - o SMAW
  - o GMAW
  - o FCAW
  - o GTAW
  - o Overlaying
- Basic understanding of weld quality control, welding code standards and specifications, and non-destructive examination.
- Basic understanding of Radiography (x-ray testing of welds)
- Lay-out and fabricate stairs and handrails.
- Fabricate, repair, and maintain sheet metal items.
- Other duties may be assigned.

Promote and actively embrace the concept of professionalism, with an emphasis on quality, commitment, integrity, ingenuity, teamwork, the community and the environment. Safety is a deeply rooted cultural value and it must be promoted and enforced at all times.

## **Job Qualifications:**

Craft I

High School Diploma or general education degree (GED) and one (1) to three (3) years related experience and/or equivalent combination of education, training and experience.

Craft II

Associates degree (A.A.) or equivalent from two-year college or technical school and three (3) to six (6) years related experience and/or equivalent combination of education, training and experience.

Craft II

Associates degree (A.A.) or equivalent from two-year college or technical school and five (5) to ten (10) years related experience and/or equivalent combination of education, training and experience.

Experience reading blueprints.

Must be willing to travel occasionally

\*Must be a US Citizen\*

**Certificates, Licenses, and Registrations** Must be able to pass weld tests in accordance to AWS and ASME codes

**Additional skills** Strong interpersonal skills and ability to work in a very dynamic environment – must have flexibility with an ability to focus.

**Other Qualifications** The physical demands and work environment described here are representative of the conditions that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
